

## **FISCAL NOTE**

TO: Chief Clerk of the Senate  
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: January 27, 1996

SUBJECT: **SB 2423 - HB 2259**

This bill, if enacted, will permit any county to erect and maintain signs designating historic, cultural, educational or charitable sites along any highway included in the general state highway plan.

The fiscal impact from enactment of this bill is estimated to be an increase in local expenditures to the extent that local governments choose to place such signs. The amount of such increase in expenditures cannot be determined but is estimated to be insignificant.

The Department of Transportation has advised that this bill will violate the maintenance agreement with the Federal Highway Authority and jeopardize the receipt of Federal Highway funds.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

James A. Davenport, Executive Director
